Remote Handset

Main Unit

Two way splitter

Telephone lead

Adaptor
HOW TO GET STARTED

1. Connect the transformer to the main unit and plug into an electrical socket in your property.

2. Insert batteries (AAA x 4) (not included).

3. Connect the telephone lead to the unit end of the transformer.

4. Push switch to 'ON' position.

OPERATION

Note: If the unit is turned 'OFF', your recorded message will not be deleted.

1. The remote control can operate the main unit at a distance of 30 meters.

2. Switch the unit 'ON'. The red led light will flash for 3 seconds. Once the red led light stops flashing you can record your message and store up to 3 telephone numbers.

3. Telephone numbers have been stored. To record your personal message and note the remote handsets are pre-set at the factory and may require programming. Please refer to the instruction manual for details.

4. The HX28 is supplied with two remote handsets. Please note that handsets will not function if not connected to the main unit.
